

# KILOBYTES

The Quarterly Newsletter of the  
Computer Club of Rossmoor  
Walnut Creek, CA

Computer Club website: [www.caccor.com](http://www.caccor.com)

It was just about a year ago when I started volunteering for the Computer Club of Rossmoor (“CCOR”). The more I learned about the Club, the more it became clear that education was at the core of our Club’s mission. In fact, I have since – and often – said that “Education is baked into our DNA”.

Of course, the classes we teach at the Acalanes Adult Education (“AAE”) campus are the pillars of our educational program. We utilize two formal classrooms, dedicated solely to CCOR, that are currently equipped with 40 PCs donated by the Club to AAE (and, by the way, we are committed to replacing these systems when needed). We are very proud of our unique relationship with AAE, which dates back to the mid 1990s (to read more about the Club’s history, you can visit our website at [www.caccor.com](http://www.caccor.com) and click on the History tab).

Rossmoor’s Fireside Room is also a familiar venue for absorbing some computer-related knowledge. While the Club typically stages a free seminar each quarter in the Fireside, we have already conducted three seminars in 2017. Why this frantic pace? Last fall Tim O’Keefe, the Golden Rain Foundation’s CEO, asked CCOR to assist those residents needing some extra training due to the January Comcast rollout. Naturally, we stepped right up to the plate and developed three new seminars designed especially for those users because, well, education is baked into our DNA.

Recently, the CCOR Board of Directors has been

looking at the Club’s many functions and activities, and exploring ways to expand our educational offerings. In the coming months, we hope to launch new ways of creating learning experiences for our many members. For example, we are looking at options for teaching some types of classes right here in Rossmoor. We are also

considering free, mini “Flash Classes”: 15-30 minute sessions conducted in the Gateway Computer Center. These would focus on a single topic, such as how to cut-and-paste or how to manage your laptop’s power settings. The possibilities are endless!

So, yes, we are developing some new educational approaches that we hope to launch later this year. But there is one new program that is ready to roll out in April. I am thrilled to introduce our “Tech-Togethers”, monthly get-togethers for tech-minded Club members (as you may recall, I talked in depth about this concept in the last issue of Kilobytes). We will discuss various tech / computer related topics, explore the latest technology innovations, and maybe even go on a field trip or two. In addition to offering learning opportunities – because, as you may have heard, education is baked into our DNA! – this will also be a venue for members to meet, get to know each other, and have fun. I hope to see you at our first event.

(You can read more about the Tech-Together kick-off event on the next page).

--Rhona Lishinsky, President

The Computer Club of Rossmoor proudly introduces

# TECH-TOGETHERS

A **monthly forum** for **Computer Club Members** to meet, get to know each other, and share our experiences about computing, tech devices and services.

**SAVE THE DATE:** Our first Tech-Together is **Friday, April 28<sup>th</sup> 10am**

## **DISCUSSION TOPIC: Streaming Media / Devices**

Can't decide if you should replace your Roku device? Should you binge-watch that TV series with an Apple TV or Google Chromecast? How is Xfinity's X1 Box for streaming movies? Share experiences, chat with other members, see a few device demos. Let's "talk tech", together!

To celebrate the launch of our very first Tech-Together, this event will be open to both members and non-members.

Here are just a few of the topics we are thinking about for future meetings:

- Creating a website
- Cloud services
- Spec-ing out a new system
- Internet TVs....are they worth it?
- Voice recognition software
- File sharing (home network)
- "Connected Home" devices
- Optimizing laptop battery life
- Managing start-up programs
- Working with graphics in MS Word
- Anti-Virus software comparison
- PLUS: trips and speakers, too!

The location of the Tech-Together event will be announced shortly. Please visit our website at [WWW.CACCOR.COM](http://WWW.CACCOR.COM) and click on the Events tab to check for updates and additional information. Or, look for notifications in your email or the Rossmoor News.

Interested in joining the Computer Club of Rossmoor? Membership is only \$15/year! Use the handy membership application on our website – [www.caccor.com](http://www.caccor.com) – and then click on the Members/Volunteers tab to get a membership

The Computer Club will show the movie, "The Triumph of the Nerds: The Rise of Accidental Empires," an irreverent look at the pioneering years of the PC revolution including changes in the industry and their impact on the future.

Tuesday, April 4  
7 p.m.

Peacock Hall

There is no charge.

All are invited.

## FREEBIES FROM COMCAST!

If you are using Comcast as your internet service provider ("ISP") you are entitled to a few freebies. A listing of the items is available here:

<http://constantguard.xfinity.com/products-and-services> .

Those items that indicate they are "**Included with Xfinity subscription**" are free for you to download and install. If you are currently paying for comparable services, here is an opportunity to save some money (courtesy of Comcast).

The items can be downloaded here: <http://constantguard.xfinity.com/>

One caveat before you start clicking "download": These items are memory and CPU intensive. If your computer is running slowly, the installation of any or all of these will make it slower.

## Bill's Bytes by Bill Hammond

**QUESTION:** When viewing a web page, I usually point the mouse cursor to the scroll bar on the right hand side of the page and drag down. I was told to use my mouse wheel instead, but my mouse doesn't have a wheel. Is there something else that I can do?

**ANSWER:** There is something you can do, and I think it is better than using the scroll bar or the mouse wheel. Simply tap the space bar and it will scroll down a page at a time. To go back, hold down the shift key while you tap the space bar and it will scroll up.

**QUESTION:** Is there a way to read the Rossmoor News online?

**ANSWER:** Yes! Doing so is very convenient and easy. Here's how:

- 1) Open your web-browser and go to [www.rossmoornews.com](http://www.rossmoornews.com) to bring up an image of the actual newspaper.
- 2) To enlarge the image, simply place your cursor over the Rossmoor News banner (or anywhere on the image of the newspaper) and left-click once. If you are using a tablet or smartphone, simply tap the screen.

That's it! On a PC, use your preferred method for scrolling down the page....such as using the space bar as discussed above. On a tablet or smartphone, simply use your finger to flip the pages or "stretch" the screen to enlarge the print even more. You can even read past editions: when you first open [rossmoornews.com](http://rossmoornews.com), click on the "Past Issues" link. You will then be able to select any edition, as far back as 2008!

The Computer Club is looking for a volunteer to help with publicizing our events. This is a unique role that lets you utilize your creative skills, engage with other volunteers, and perform a critical function for one of Rossmoor's largest and most respected clubs. If you have good design, writing, and time management skills, and would like to talk about this opportunity, please email Rhona Lishinsky at: [RhonaCCR@comcast.net](mailto:RhonaCCR@comcast.net).

The Computer Club is always looking for Volunteers with solid PC and /or mobile device skills. But even if those are not

your strong suits, there are other ways you can get involved, such as: providing members with information about classes and activities, or assisting the Club with staging events. Stop by the Computer Center in Gateway to find out how you can participate. Or, simply visit our website at [www.caccor.com](http://www.caccor.com) and go to the Members / Volunteers page to get a Volunteer Application.

**COMPUTER CLUB OF ROSSMOOR**  
**PO Box 2070, Walnut Creek, CA 94595**  
**Website: [www.caccor.com](http://www.caccor.com)**  
**Gateway Center (925) 947-4527**

**MEMBERSHIP APPLICATION or RENEWAL**

Membership is open to all Rossmoor residents, including a limited number of non-residents. Club membership of \$15 entitles one person to full Club benefits for a calendar year starting January 1st. Sustaining renewal Dues of \$15 are due by January 1st.

New memberships made during September through December receive membership through the following year.

Dues or new membership may be paid at the Computer Center in Gateway Complex, or mailed along with this form and a check to the Club at the above address.

**PLEASE PRINT CLEARLY**

NAME (1 name only, no joint memberships) \_\_\_\_\_

**Center volunteer – Inform the new member that they will receive a welcome email, and direct them to the Club’s website for useful information. Add notes to this form as needed. Clip funds to this form and place in green folder. Provide a copy of this form to them for their records.**

The Club is independent of the Golden Rain Foundation.

# SPRING SESSION 2017

## 3 Hands-On Class meetings:

Fee: \$35 Club Members, \$45 non-members

Classes limited to 15 students

(Windows classes accommodate 3 more students w/ own laptop).

#	Class	Day	Time	Dates	Teacher
401	<b>Microsoft Word</b>	Tue	1-3pm	Apr 11, 18, 25	Heflich
	Learn the basics of creating documents, lists, charts, and brochures.				
402	<b>Windows 10 level I</b>	Thur	1-3pm	Apr 13, 20, 27	Wilson
	Find your way around this new operating system.				
403	<b>Overcoming Computer Anxiety</b>	Mon	10am-12pm	May 1, 8, 15	Heflich
	Learn how to operate a Windows computer. If you need the basics, this course is for you.				
404	<b>Windows 10 level I</b>	Tue	10am-12pm	May 2, 9, 16	Wilson
	Find your way around this new operating system.				
406	<b>Windows 10 level II</b>	Wed	10am-12pm	May 24, 31, June 7	Wilson
	Expand your basic knowledge and comfort with advanced features and knowledge.				
405	<b>Microsoft Excel</b>	Tue	1pm -3pm	May 23, 30, June 6	Heflich
	Refresh or learn the basics of using Excel for such things as investment records, household inventory, and budget planning.				

Classes are held at lower-level campus of Acalanes Adult Ed Center, 1963 Tice Valley Blvd, Walnut Creek. Please arrive 10 minutes early. Payment must accompany enrollment form. Enrollment must be made in advance of the first class – it will not be accepted at the classroom. Refund only for class cancellation. Make checks payable to CCOR. Form and funds should be delivered to Gateway Computer Center, or mailed to Computer Club of Rossmoor, POB 2070, Walnut Creek, CA, 94595. For questions, call the Center at (925) 947-4527.

## SPRING SESSION 2017

**Seminars:** Single meeting with Demo & Q/A

Fee: \$15 Club Members, \$25 non-members

#	Seminar	Day	Time	Date	Teacher
413	<b>Protection from Hack &amp; Spam</b>	Fri	10am-12pm	May 1	Wilson
	Learn basic protective measures to increase phone and Internet security.				
414	<b>Using Control Panel</b>	Fri	1pm-3pm	May 26	Wilson
	Learn to customize computer operations and resolve common problems.				
411	<b>Backing up Your Computer</b>	Wed	1pm-3pm	May 10	Heflich
	Learn various back-up methods to in order to protect your valuable data.				
412	<b>Files &amp; Folders</b>	Wed	1pm-3pm	May 17	Heflich
	Learn how to navigate through your data and to organize and retrieve information.				
415	<b>Transferring Data</b>	Fri	1pm-3pm	June 9	Wilson
	Learn methods for moving/copying data between cellphone, PC, and other devices.				
416	<b>Using Email</b>	Fri	1pm-3pm	June 9	Heflich
	Learn the basics of email (Comcast Email will be used as an example).
