Movie Night -- The YouTube Effect

The YouTube Effect is a documentary that explores the massive impact of YouTube on society and culture. Directed by Alex Winter, the film delves into the platform's evolution from a simple video-sharing site to a media giant while exploring misinformation and the ethical responsibilities of tech giants. 2022 film.

Runtime: One hour, 39 Minutes

Ask Bill

Q: What is a Data Breach?

A: A data breach occurs when unauthorized individuals gain access to confidential information. This can happen when they infiltrate computer systems, networks, or databases. The breached data may include personal information, financial records, intellectual property, or

any other protected information that falls into the wrong hands. The consequences of a data breach can be severe, including financial losses, reputational damage, legal implications, and potential harm to victims1.

It is not always easy to find out if you have been the victim of a data breach, but here is a quick way you can check: Visit https://haveibeenpwned.com/

Of particular interest is the Home tab, the "Who's been pwned" tab, and the passwords tab.

You can learn what sites have been breached, when it happened, and the information that was leaked.

Protect yourself by employing 2-factor authentication on your accounts and changing your passwords.

- **Computing Fundamentals:**
  - **AI Built into Edge**
- **Understanding and Avoiding Digital Scams**
- **iCloud How To**
- **Apple CarPlay**
- **iPhone Tips and Tricks**

Computing Fundamentals (Windows) AI built into Edge
Wednesday, March 20, 3:30 PM in the Computer Center
Instructor: Bill Hammond
This class is an introduction to Microsoft AI (Artificial Intelligence). Learn how to use Copilot to search the Internet more efficiently and see how to create realistic images and art from a text description.
PLATFORM: Windows **LEVEL**: Beginner

Click to Enroll: FLASH CLASS: Computing Fundamentals (Windows) AI built into Edge

Understanding and Avoiding Digital Scams
Thursday, March 28, 3:30 PM in the Computer Center
Instructors: Jeanne Freedland and Julie Hudson
Learn how to understand and avoid digital scams such as Tech Support, Phishing, Grandparent and more.
PLATFORM: All **LEVEL**: Beginner

Click to Enroll: [FLASH CLASS: Understanding and Avoiding Digital Scams](#)

iCloud How To
Wednesday, April 10th, 1:30 PM via Zoom

Instructor: Gerry Hornik
iCloud provides the glue between all your Apple devices, allowing you to access Mail, Calendar, Contacts, Photos, and Documents on any of them, as well as backups and collaboration with other users.
PLATFORM: MAC **LEVEL**: Beginner

Click to Enroll: [FLASH CLASS: iCloud How To](#)

Apple CarPlay
Thursday, April 18, at 10:00 AM Via Zoom
Instructor: David Hickey
Apple CarPlay is a smarter, safer way to use your iPhone while you drive. Many new cars don't come with a navigation system so you will need to use your phone for navigation. You can get directions, make calls, and send and receive audio messages. Car year must be 2017 or later.
PLATFORM: iPhone **LEVEL**: Beginner

Click to Enroll: [FLASH CLASS: Apple CarPlay](#)

iPhone Tips and Tricks
Tuesday, April 23, 12:00 PM in the Computer Center
Instructor: Sandra Hauserman
Part 1 of a series of classes. Learn shortcuts, hidden features, productivity hints, and more to help you get the most from your Apple iPhone
PLATFORM: Apple **LEVEL**: Beginner

Click to Enroll: [FLASH CLASS: iPhone Tips and Tricks](#)

iPhone Tips and Tricks
Tuesday, April 23, 3:30 PM in the Computer Center

*Unless otherwise noted, MS Word and Excel classes are taught using the Windows versions of these programs. Mac users are welcome to take these classes, but some features of the Mac versions may differ.

Wait List

If the class you want to take is full, please be sure to put your name on the Wait List. It is quite common for registered students to cancel their registration, making way for others to be bumped from the Wait List to active enrollment status. And, **if we have a 6 or more students on the Wait List, our instructors are now committed to immediately adding an additional class,** with priority registration offered to those on the list.

About Flash Classes

Flash classes are free and are only available to Active (paid) members of the Computer Club. Registration is generally limited to 15 students. To register, click on the links shown above, or go to the Flash Class tab at www.caccor.com

What's New in the Member Forum?

Ask questions, provide answers, buy, sell, trade or give-away equipment and devices.

Non-members may now access the Computer Club's online Forum. This change will help our members make the most of the Forum by opening up participation to a wider audience.
