Upgrade to Windows 10

Process

Go to: https://www.microsoft.com/en-us/software-download/windows10

Click Update now OR

Create Windows 10 installation media

- Format an 8GB (or higher) USB flash drive.
- Download the Windows 10 media creation tool.
- Run the media creation tool wizard to download the Windows 10 installation files in an ISO file format.
- Create the installation USB drive using Rufus.
- When you're ready to install Windows, insert the USB drive and run Setup.exe.
